

# The flushend package

Sigitas Tolušis

`sigitas@vtex.lt`

<http://www.vtex.lt/tex/download/macros/>

1997/10/01

## 1 Purpose:

Balanced columns on last page in `twocolumn` mode.

## 2 Short Description:

- `\flushend` (loaded by default) – Switches on column balancing at last page
- `\raggedend` – Switches off column balancing at last page
- `\atColsBreak={⟨#1⟩}` – Adds `⟨#1⟩` in place of original column break (without balancing)  
Example: `\atColsBreak{\vskip-2pt}`
- `\showcolsendrule` – Adds rule to the bottom of columns (just for debugging)

P.S. To stretch right column by `⟨#1⟩` add command `\vskip-⟨#1⟩` just before command `\end{document}`. TO shrink right column by `⟨#1⟩` add command `\vskip⟨#1⟩` just before command `\end{document}`. Example:

```
\vskip-10pt
\end{document}
```

### 3 List of Changes

1997/05/16 – first version

1997/09/09 – support for compatibility with `cuted.sty`

1997/10/01 – `\vipерsep` changed to `\stripsep` for compatibility with `cuted.sty`

`flushend.sty`
