The diagram illustrates a solution to a maze problem. A green path, marked with arrows, starts at the bottom-left of the maze and proceeds through the maze to the top-right. The path is composed of several segments: a vertical segment on the left, a horizontal segment at the bottom, a vertical segment on the right, a horizontal segment at the top, and a final vertical segment on the far right. A blue shaded region highlights the area of the maze that is not part of the path, representing the explored or visited area. The maze is defined by black lines on a white grid.
